## A. ENTITLEMENT TO BENEFITS

- A1.** The Scheme Tariff is defined as the rate at which health services are reimbursed by the Scheme.
- A2.** Beneficiaries are entitled to benefits as shown in this Annexure B, subject to the monetary limits and implementation restrictions set out herein, to the exclusions referred to in Annexure C of the Rules, to the general limitation and restriction of benefits set out in Annexure D of the Rules and to the procedural and other requirements set out in the Main Rules.

**A3. Selection of a Network of GPs and Pharmacies for chronic consultations and medication (Chronic Network DSP)**

Upon joining, and annually prior to 1 January of each year, members must choose between the Comprehensive and Restricted Network Options, such a choice will determine the applicable DSP per Annexure D of the Rules.

- **Comprehensive Network of GPs and Pharmacies as Chronic Network DSP: Comprehensive Network Option**
  - Members choosing the Comprehensive Network Option will have access to any GP and any pharmacy for chronic consultations (out of hospital) and chronic medication. Members are still required to use their nominated Preferred General Practitioner (PGP) for out-of-hospital consultations. See paragraph B7 for information regarding the nomination of a PGP.
  - The Comprehensive Network Formulary applies to chronic medication.
  - Additional co-payments may apply for voluntary use of non-formulary medication for a chronic condition, as stated in this Annexure B.
  - No contribution discount will apply for choosing this network option as per Annexure A.

- **Restricted Network of GPs and Pharmacies as Chronic Network DSP: Restricted Network Option**

- Members choosing the Restricted Network Option will have access to a restricted network of contracted GPs (Premier Plus Network) and a restricted network of contracted pharmacies (Medipost) as their Chronic Network DSPs for chronic consultations (out of hospital) and chronic medication.
- GP consultations and medicine for chronic conditions via Restricted Network DSPs will be reimbursed at the Restricted Network DSP rate for consultations and medication; additional co-payments may apply if the GP/Restricted Network GP consulted is not also the member's nominated PGP. See paragraph B7 for information regarding the nomination of a PGP.
- The Restricted Network Formulary will apply to chronic medication obtained from DSPs and non-DSPs.
- Additional co-payments may apply for chronic consultations and chronic medication voluntarily obtained outside the relevant Chronic Network DSP, or for voluntary use of non-formulary medication for a chronic condition, as stated in this Annexure B.
- A discounted contribution rate will apply for choosing this network as per Annexure A.

The member's choice of Chronic Network DSP (either the Comprehensive Network Option or the Restricted Network Option) will apply to the member and his/her dependants.

All family members must use GPs and Pharmacies in the member's chosen Chronic Network DSP for consultations and medication related to PMB and non-PMB chronic conditions as per Annexure D.

The nomination of a Chronic Network DSP applies to GPs and Pharmacies only; it does not impact the arrangements pertaining to Specialist consultations and visits as per this Annexure B.

In the event of a member not selecting a Chronic Network DSP option (either the Comprehensive Network Option or the Restricted Network Option) upon joining the Scheme, he or she will be defaulted to the Comprehensive Network Option and will be afforded an opportunity to select an alternative option with effect from 1 January of the following year.

Members will have the opportunity to review their Chronic Network DSP option annually, with effect from 1 January of the following year, failing which he or she will be defaulted to the same Chronic Network DSP option he/she participated in, in the previous benefit year.

The Scheme Tariff in respect of consultations and medication for chronic conditions will be based on the negotiated fee/tariff applicable to the member's chosen Chronic Network DSP and the member's utilisation of participating network providers, subject to PMB regulations.

REGISTRAR OF MEDICAL SCHEMES

## B. CHARGING OF BENEFITS, LIMITS INCLUDING ANNUAL LIMITS, MEMBERSHIP CATEGORIES AND PGP

- B1.** Claims for services stated as being subject to payment from the benefits as shown in the column headed “Limits” in the table in paragraph D below are allocated against the benefit limits.
- B2.** When the member’s benefit limits are exhausted no further benefits are available except for Prescribed Minimum Benefits (PMBs) subject to PMB regulations.
- B3.** The column headed “Benefits” shows how the cost of a valid claim shall be determined for the purpose of reimbursing the member or the supplier and the share of such cost that the Scheme will bear before any stated co-payments are imposed. The balance of the share of costs to make up 100% thereof shall be the member’s responsibility, except for Prescribed Minimum Benefits.
- B4.** The column headed “Limits” shows the extent to which the benefit is limited over a period or sub-limited in monetary or other terms.

**B5. Membership categories:**

Principal Member

Adult

Child

Principal Member

M+0

Principal Member plus 1 dependant

M+1

Principal Member plus 2 dependants

M+2

Principal Member plus 3 or more dependants

M+3+

- B6.** There is no overall annual limit.

**B7. GENERAL CONDITIONS FOR THE SELECTION / CHANGE OF A PREFERRED GENERAL PRACTITIONER (PGP)**

- B7.1.** The Scheme shall pay for benefits in respect of out-of-hospital consultations by general practitioners subject to the conditions set out in this paragraph, paragraph A3 (for chronic consultations) and D5.1 and its sub-paragraphs.
- B7.2.** Each member, on behalf of himself or herself and his or her registered dependants, shall select a PGP by completing the relevant form as required by the Scheme. Where a PGP selection has been exercised by the member in respect of himself/herself, but not for the registered dependants, the member's selected PGP will also be regarded as the selected PGP for any dependants in respect of whom no PGP selection was received. Members on the Restricted Network Option are encouraged to select PGPs who form part of the Restricted GP Network (see paragraphs A3 and D5.1).
- B7.3.** It is permissible for dependants to select different PGP's, subject to the following provisions:
- B7.3.1.** Adult dependants (e.g., spouses) may select a PGP of their choice.
  - B7.3.2.** For child dependants under the age of 16 years, a PGP will be selected by the parent registered as the principal member of the Scheme.
  - B7.3.3.** Child dependants over the age of 16 years may select their own PGP, with the consent of the parent registered as the principal member of the Scheme.
  - B7.3.4.** A PGP may be changed at the principal member's discretion once every six (6) months by completing the required form, and/or when a member changes from the Comprehensive Network Option to the Restricted Network Option with effect from 1 January of a given year.
  - B7.3.5** Where a PGP is part of a group practice of General Practitioners, members may visit any doctor in the group practice provided that the claim is submitted on the group practice number normally used by the nominated PGP.

- B7.3.6.** Consultations/visits with a GP who is not the nominated PGP shall incur additional co-payments as stipulated elsewhere in this Annexure B, except for involuntary use of a non-PGP for a PMB emergency medical condition (see B7.3.9).
- B7.3.7.** See B8 and D5.2.2 of this Annexure B for GP referral requirements before consulting a specialist unless the specialist consultation is part of an approved treatment plan.
- B7.3.8.** Additional or 'secondary' PGPs may be selected under specified circumstances as communicated to members from time to time.
- B7.3.9.** In the event of involuntary use of a non-PGP for a PMB emergency medical condition, the rule relating to PGP's will not apply. "Emergency medical condition" means "the sudden, and at the time, unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment of bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy".

**B8. GP referral for specialist consultations out of hospital**

With due regard to the PMB regulations, a member/beneficiary will be required to be referred by a registered general practitioner prior to consulting a specialist out of hospital.

The following exceptions are applicable:

- Maternity cases;
- Children under the age of one (1) year, for paediatrician visits / consultations;
- One (1) gynaecological consultation / visit per annum for female beneficiaries;
- One (1) urologist consultation / visit per annum for male beneficiaries;
- Involuntary consultation with a specialist without GP referral for an emergency medical condition;
- Specialist consultations that form part of post-surgical care;
- Specialist-to-specialist referral;
- Specialist consultations that form part of an authorised treatment plan issued by the relevant Managed Healthcare Organisation in line with a relevant managed healthcare programme;

- Consultations with dental specialists; and
- Consultations with ophthalmological specialists.

### **B9. Private wards**

Private ward rates for hospitalisation will only be paid if the stay in a private ward has been authorised by a medical practitioner as essential because the patient poses a risk to other patients and the case has been pre-authorised by the relevant managed healthcare programme. In the absence of such authorisation, general ward rates will apply.

## **C. PRESCRIBED MINIMUM BENEFITS**

Prescribed Minimum Benefits as shown in Annexure A of the General Regulations, made in terms of the Medical Schemes Act 131 of 1998, override all benefits and limits indicated in this annexure, but accumulate to benefit limits.

The Prescribed Minimum Benefits are available in conjunction with the Scheme's contracted managed healthcare programmes. These include the application of treatment protocols, baskets of care, medicine formularies, medicine reference pricing, Scheme tariffs, pre-authorisation and case management. These measures have been implemented to ensure appropriate and effective delivery of Prescribed Minimum Benefits.

See Annexure D – paragraph 7 for a full explanation.
